

Art sheets

We love inspiring creativity in kids. Parents, here are a few things to consider when helping your young artist create their final masterpiece:

Only use crayons.

Choose a drawing sheet or a coloring sheet.

- **If your child chooses a coloring sheet:**
 - Suggest they go over the lines with a crayon before coloring inside the lines.
 - When coloring, encourage them to add details or use multiple colors.
- **If your child chooses a drawing sheet:**
 - Check out the list of ideas on pages 2–3.
 - Be sure their drawing is original (no cartoon characters, superheroes, sports teams, logos, etc.).
 - Be sure your child draws just one item (car, butterfly, flower, etc.) inside the box.

Leave the background white and use at least two different crayon colors.

Colorings and drawings must be your child's original artwork and should not contain any logos, characters, sports teams, or other materials that may infringe upon the rights of others or be considered negative content.

Your child's coloring or drawing may not include any words, phrases, names or other text.

Do not include your child's name, initials, age or any other identifying information inside the box on the art sheet.

When your young artist is done:

- Scan or take a well-lit picture of their drawing sheet or coloring sheet.
- Complete the online submission form where you will upload your young artist's drawing sheet or coloring sheet as part of your submission.

We're excited to see what your young artist creates.
